To alert you to the existence of information relevant to the question whether you should take administrative action concerning the surreptitious entry matter.

Pursuant to your instructions I furnished you a memorandum dated December 8, 1976, captioned as above which addressed the question whether there is any indication that the Civil Rights Division restricted access to the results of their investigation so that it would not be available to you for purposes of taking administrative action within the FBI. While reviewing the documents furnished me by Mr. Long for that purpose, I discovered a memorandum which I had not known existed previously. The memorandum did not deal with the question of whether the Civil Rights Division restricted access to the results of their investigation but it did contain information concerning surreptitious entries that had been developed within the FBI. I cannot assess its full significance because additional investigation is required. However, it is my opinion that you should be alerted to the existence of the information so that you may be prepared to order the necessary investigation and consider taking appropriate administrative action at such time as it may be possible to do so consistent with the Civil Rights Division investigation.

The memorandum was from Director, FBI, to Assistant Attorney General, Civil Rights Division, captioned "Surreptitious Entries," dated May 14, 1976. It transmitted one copy each of responses from FBI officials who were asked to furnish "their complete and full knowledge of any and all break-ins or surreptitious entries performed by Bureau Agents or by others with prior or subsequent knowledge by the Agents since January 1, 1966." The Assistant Attorney General, Civil Rights Division, had requested such an inquiry of Bureau officials in his memorandum to

you of January 20, 1976. Included in the responses from the Bureau officials was one from a current Bureau official whose response was dated April 5, 1976. His statement was 'I have been involved in both the domestic and foreign fields in intelligence for the majority of my career in the FBI and during this period I have been aware of many surreptitious entries, although I cannot specifically identify any at this point, either by dates, places, or targets involved.'

The above-quoted statement must be compared with information reported in an Inspection Division memorandum prepared subsequently. The memorandum from H.N. Bassett to Mr. Callahan captioned "Surreptitious Entries" dated May 11, 1976, reported the results of the Inspection Division inquiry in the New York Office. On page 9 of the memorandum, it was reported that the current Bureau official whose statement is quoted above was identified as a person whose initials appear in the block stamp on memoranda found in the New York Office regarding surreptitious entries on December 11, 1972, and December 20, 1972. Attached for your information is one copy each of the memorandum to the Assistant Attorney General, Civil Rights Division, May 14, 1976, and the relevant enclosure plus one copy of the Bassett to Callahan memorandum, 5-11-76.

RECOMMENDATION:

That at such time as you obtain the concurrence of the Assistant Attorney General, Civil Rights Division, this matter be referred to the Planning and Inspection Division for investigation.

PURPOSE:

Civil Rights Division Surreptitious Entries

To record a conference with the Attorney General concerning captioned matter.

SYNOPSIS AND DETAILS:

At approximately 9:30 a.m. on December 9, 1976, Doug Marvin, counsel to the Attorney General, called me and said the Attorney General requested me to meet with him personally at once. I met with the Attorney General in his office at approximately 9:35 a.m. We were joined by Doug Marvin, Jack Fuller and the Deputy Attorney General, all of whom attended at the Attorney General's specific request.

The Attorney General told me that he was concerned that there appeared to be some lack of agreement between the FBI and the Civil Rights Division regarding the authority of the Director to undertake an investigation for purposes of administrative action. He said that when the issue has been discussed there seems to have been some difficulty on the part of both the FBI and the Civil Rights Division in agreeing upon the correct state of affairs. He said that you had indicated to him that you had conferred with me concerning these matters and that he desired to discuss them with me. He said that in his discussions with Assistant Attorney General Pottinger as recently as the evening of December 8, 1976, it was Mr. Pottinger's position that the Director was not constrained from undertaking an investigation for purposes of administrative action at the present time and that it has never been his position that the Director was ever constrained in that regard. Further, Mr. Pottinger took the position that the Director had available to him sufficient information on which he could take administrative action which information was contained in a "Bassett memorandum." The Attorney General then asked me

Memo Legal Counsel to the Director
Re: Surreptitious Entries

to explain to him the Director's position.

I told the Attorney General that before the Director could undertake any administrative action in this matter he would need some indication from the Assistant Attorney General of the Civil Rights Division or from the Attorney General that they concurred in the decision to take administrative action while the Civil Rights Division investigation is still pending and that the Director had told me personally during this week that he had not received such concurrence and moreover that it was his understanding from Mr. Pottinger that he should not proceed to take administrative action while the Civil Rights Division investigation is pending. I told the Attorney General that even if the Director had the Assistant Attorney General or the Attorney General's concurrence to take administrative action he could not realistically do so without having the factual basis on which such action could be taken. I explained to him the "Bassett memorandum" apparently refers to a memorandum prepared by Assistant Director Bassett at the time he was in charge of the Inspection Division and that the memorandum merely confirms the existence of certain documents in the New York Office and reports that those documents bear initials which are identifiable with current Bureau officials. I told him that the memorandum did not report information in addition to the existence of the documents and of the initials and that such limited information was insufficient to use as a basis for administrative action. I told him that additional investigation was required in the form of interviews and possibly other document reviews but that in accordance with the Director's understanding of the limitations imposed on him by the Civil Rights Division, the necessary additional investigation could not be conducted.

The Deputy Attorney General said that he agreed with the Director's understanding of the circumstances but that Mr. Pottinger was taking the position that the Director was not bound to refrain from doing those things necessary in order to take administrative action.

I then told the Attorney General that it was my opinion that the Director would order an investigation for the purposes of taking appropriate administrative action if he were authorized to do so by the Attorney General. The Attorney General

Memo Legal Counsel to the Director
Re: Surreptitious Entries

said that if that were the Director's position the Attorney General would consider a memorandum from the Director expressing his desire to conduct the necessary investigation and stating that he intends to order such investigation unless directed not to do so by the Attorney General. The Attorney General made clear that the decision whether such a request should be made by the Director lies solely within the discretion of the Director.

I told the Attorney General I would bring these matters to your attention and I was confident that he would have a response from you shortly.

The Attorney General said that he had discussed the possibility of the Director ordering an investigation for administrative purposes but the Director had told him that it was difficult to undertake investigations based on rumors. The Attorney General said he understood that but that he would like to make a specific point that the FBI should have a method of inspecting offices that would identify such problems so that there would be no need for the Director to rely upon rumors.

RECOMMENDATION:

That you send the attached proposed memorandum to the Attorney General requesting his concurrence in your decision to order an investigation for purposes of administrative action concerning surreptitious entries.

SUBREPTITIUS INVESTIGATION

Civil Rights Division Subreptitious Exp.

Since the beginning of the investigation, I have been concerned that the Civil Rights Division investigation has continued for so many months and that there does not seem to be any clear indication as to when it will be completed. It has been my desire from the beginning of this matter that the facts be promptly collected and made available so that any criminal or administrative action deemed appropriate might be undertaken without delay. I still believe that my obligations to the FBI and to you require me to resolve the administrative aspects of this matter as soon as possible. Further delay may be harmful to this Bureau. Therefore, it is my intention to order an investigation to be conducted by the Planning and Inspection Division of this Bureau under my direct supervision so that I may be furnished the facts and that appropriate administrative action may be taken. It is my present intention to conduct a full investigation of all matters presently known to require investigation and all matters which may be discovered during the course of the inquiry. I ask your concurrence in my decision to order this investigation. If you, as Assistant Attorney General of the Civil Rights Division have any objections to the implementation of my decision or if you have any specific recommendations or suggestions to me concerning this matter, I would appreciate your expressing these objections and directives in writing by December 14, 1979. I will consider the receipt of such written responses and I will proceed to implement my decision as established and I will proceed to implement my decision.

SUBJECT: SURREPTITIOUS ENTRIES

PURPOSE:

To record a call from Assistant Attorney General Pottinger concerning captioned matter.

DETAILS:

At approximately 2:17 p.m. on December 9, Assistant Attorney General Pottinger called me and said that he had spoken with you on the evening of December 8 concerning captioned matter. He said that today he had talked with the Attorney General concerning this matter and the Attorney General had told him of the Attorney General's conference with me on the morning of December 9. Mr. Pottinger said he feels there is a continuing lack of understanding and he would like to suggest a meeting directly between himself and the FBI because to involve the Attorney General and the Deputy Attorney General as intermediaries seems to cause things not to be clear. He suggested that a conference be held in your office at 10 a.m. on Tuesday, December 14, 1976, to be attended by you, Mr. Pottinger, Jim Turner of Pottinger's staff, Mr. DeBruler, and me.

He said that he would like to present to you at that time a memorandum concerning guidelines on administrative action which you might undertake. Secondly, he would like to refer to you matters which you might consider for administrative action. Third, he would like to furnish you his ideas concerning how investigations might be structured to uncover facts and he would like to share with you his methodology. I agreed that we would set 10 a.m., December 14, 1976, in your office as the time and place for such a meeting if your schedule would permit. Your secretary advised me that such a meeting could be scheduled for us at that time and we made a tentative commitment for you.

TO : THE DIRECTOR

DATE: 12-10-76

FROM : R. E. LONG

SUBJECT: SURREPTITIOUS ENTRY INVESTIGATION

On 6-18-76, I assumed the duties of investigation coordinator for the surreptitious entry investigation. It was clearly established and defined by Mr. Adams that I would be working with the Department on this investigation. In the beginning, it was established that I would designate a copy of all the results of my investigation to Mr. Adams. I submitted the very first paper on result of investigation to Mr. Gardner of the Department, and a copy to Mr. Adams. Upon delivering the copy to Mr. Gardner, it was observed by him that a copy was designated for Mr. Adams. He remarked at this time that results of investigation were to go to him only and nothing was to be submitted to the Bureau. At that time, it was understood that this situation would be discontinued and, as a result thereof, I was under instructions by Mr. Adams and Mr. Gardner to submit no results of investigation to anyone at the Bureau but to Mr. Gardner only.

Mr. Gardner advised me that he wanted it to be clearly understood that no one at the Bureau was to be advised of the results of any investigation in this matter by me or anyone in the crew. If Mr. Kelley or anyone at the Bureau was to be advised of any startling investigation that was breaking or the result of any investigation, this would only be effected by Mr. Gardner and preferably Mr. Pottinger.

In view of the above, it was clearly understood by me that I would not furnish results of investigation to anyone at the Bureau; that I was clearly working with Mr. Gardner and would report to him only as to the results of investigation.

As a matter of interest, I advised several members of Mr. Gardner's staff that I thought something should be called to Mr. Kelley's attention and so recommended. This was done, as again, it was clearly understood that things would be brought to Mr. Kelley's attention only through Mr. Gardner and Mr. Pottinger.

SPECIAL AGENT [REDACTED]

ACTION MEMORANDUM

ALL (446) (7X)

Subject: [REDACTED]

This is in response to your memorandum to Assistant Director Frederick C. Fehl dated December 7, 1976, which outlines your request to have Special Agent (SA) [REDACTED] apprised of the need to have him interviewed by Mr. Gardner of your office by Friday, December 10, 1976. In addition, it was further requested that [REDACTED] be informed of your desire to grant him immunity from prosecution regarding any matter he testifies to in the interview as well as before a grand jury, in the event that such testimony becomes necessary at a later date. You also requested that Agent [REDACTED] be informed he had a right to counsel and that he has no obligation to be interviewed, although he does have an obligation to respond to a subpoena.

Agent [REDACTED] has been contacted on several occasions regarding this matter, the most recent being December 8 and 9, 1976, at which time he was furnished a transcript of your memorandum outlined above. It has been Agent [REDACTED] position from the beginning that any effort by him to surface from his undercover capacity would seriously jeopardize his assignment. Agent [REDACTED] has continually advised that he has no objection to conversing with Department of Justice officials on this matter at the conclusion of this assignment; however, for him to react to this request would require him to make contact with an attorney of his own choice. He believes that by making himself available to personal counsel he would be jeopardizing his undercover role.

Agent [REDACTED] after fully evaluating the Department's most recent request, respectfully advised he has no other alternative than to have the Department execute the subpoena for his appearance.

Assistant Attorney General
Civil Rights Division

ALL (W), (K)

Agent [REDACTED] has advised that if he is compelled to surface or testify based upon the request of the Civil Rights Division that the Department provide him written assurance of their assumption of full responsibility in the event his undercover role is compromised including consequences of his safety and security.

It is the opinion of Bureau officials on the scene who maintain contact with him that an appearance before a grand jury would in all probability end his effectiveness as an undercover Agent in this highly sensitive criminal investigation. It is their further opinion that the pitfalls of appearing before a grand jury include possible exposure of his identification through uncontrollable circumstances. There is concern, of course, as to a member of the grand jury possibly identifying Agent [REDACTED] and/or his identity being established or observed by persons unknown who could be in or around the Federal grand jury area or the courthouse.

In view of the fact that the investigation in which Agent [REDACTED] is involved is of such magnitude, there is a dire need that he continue to remain in an undercover capacity at least until late December, 1976. The tentative overt stage of this investigation involving individuals of national prominence is being scheduled for mid-January, 1977. It is the opinion of all the individuals involved in this investigation that all undercover agents should continue in these assignments for a short period of time while the overt stage of the investigation is under way in order to gather additional evidence regarding the overall investigation.

One of the most important factors in evaluating the decision in this matter centers around the personal safety and security of not only Agent [REDACTED] but of an informant who has furnished highly sensitive information during the course of this lengthy investigation. We feel that should Agent [REDACTED] undercover role be exposed at this time, it would call for immediate action in protecting the informant since his life would be endangered in addition to totally diminishing his usefulness during the overt investigation.

Assistant Attorney General
Civil Rights Division

We had previously contemplated conducting overt investigation in this matter at a time earlier than December 10, 1976. However, the success that we have achieved has necessitated our investigation continuing in a covert fashion.

(b)(6)
(b)(7)(c)

This matter has been thoroughly discussed on several occasions with Jay C. Waldman, Deputy Assistant Attorney General, Criminal Division, by reason of the fact that the Criminal Division has the prosecutive responsibility of this investigation. Inasmuch as a subpoena of Agent [REDACTED] at this time would have such an adverse effect on the criminal investigation pending as well as his safety, it is felt a conference should be held by the Civil Rights Division and the Criminal Division with Deputy Attorney General Tyler for the purpose of discussing the issues contained in this memorandum prior to the issuance of any subpoena for Agent [REDACTED] to appear before a Federal grand jury. Representatives of the Federal Bureau of Investigation stand ready to participate and discuss this matter.

Purpose is to advise of a telephone contact received by SA [REDACTED] from an attorney in the Criminal Division, Civil Rights Section, Department of Justice (DOJ) requesting an interview of SA [REDACTED] concerning his knowledge on any surreptitious entries conducted by the squad that handled the Black Panther Party (BPP) case in the New York Office.

During the p.m. of 12/20/76 Daniel Bell, Attorney, Criminal Division, Civil Rights Section, DOJ telephonically contacted SA [REDACTED] at FBIHQ. Mr. Bell inquired as to whether SA [REDACTED] was identical to Supervisor [REDACTED] who formerly supervised the squad handling the BPP case in the New York Office. SA [REDACTED] answered in the affirmative. Mr. Bell advised that he has been conducting an investigation regarding surreptitious entries on the part of Bureau Agents. He further advised that during the course of this investigation, information has come to his attention which discloses that the squad that handled the BPP case in the New York Office may have been involved in surreptitious entries in the past. Mr. Bell stated he would like to interview SA [REDACTED] for any knowledge he may have concerning this matter. Mr. Bell further stated to SA [REDACTED] that the information he has developed to date does not implicate him in any criminal action. However, during the course of the formal interview that is to be conducted he may have to ask SA [REDACTED] questions that may tend to incriminate him and if such be the case, SA [REDACTED] would be apprised of his rights. SA [REDACTED] advised Mr. Bell that in view of the latter he would not set a definite date for an interview until he considered what action he should take, whether to retain counsel or not.

By way of background SA [REDACTED] was the supervisor of squad 43 in 1970, 71, 72, and 73 in the New York Office, which squad did handle the BPP case.

Purpose of this memorandum is to advise that SA [REDACTED] will travel to New York City on official business on 1/6/77 to be interviewed by Departmental Attorneys of the Civil Rights Division, Criminal Section, Department of Justice (DOJ), regarding their investigation of surreptitious entries.

EX-109

You have been previously advised that SA [REDACTED] formerly the Supervisor of the Black Extremist Desk, New York Office, from 1970 to 1973, was telephonically contacted on 12/20/76 by Daniel Bell, Attorney, Criminal Section, Civil Rights Division, DOJ, wherein Mr. Bell advised that he has been conducting an investigation regarding surreptitious entries on the part of Bureau Agents and during the course of this investigation information has come to his attention which discloses that the squad that handled the Black Panther Party case in the New York Office may have been involved in surreptitious entries in the past. Mr. Bell stated he would like to interview SA [REDACTED] for any personal knowledge he may have concerning this matter. He further stated to SA [REDACTED] that the information he has developed to date does not implicate him in any criminal action. However, during the course of the formal interview he may have to ask SA [REDACTED] direct questions that may tend to incriminate him and, if such be the case, SA [REDACTED] would be apprised of his rights. SA [REDACTED] advised Mr. Bell that in view of the latter statement, he would not set a definite date for an interview until he decides what action he would take, whether to obtain counsel or not.

SUBJECT: SURREPTITIOUS ENTRIES INVESTIGATION

SYNOPSIS AND DETAILS:

At 5:10 p.m. on January 7, 1977, former SAC [REDACTED] called me and said that he had been contacted by Paul Hoerber of the Civil Rights Division of the Department who told [REDACTED] that he would be subpoenaed before a Federal Grand Jury in New York City and attempted to make arrangements for the date of his appearance. [REDACTED] said that he will probably appear next Tuesday afternoon, January 11, 1977.

He asked me for any instructions the Bureau may have. I told him that the Director has indicated the Bureau will cooperate in this investigation and that for purposes of relieving him of the obligations of his secrecy agreement he could consider my advice to him that he was relieved of that obligation to provide him sufficient authority for the limited purposes of his interview by Department representatives or his testimony before the Federal Grand Jury. I also told [REDACTED] that he might consider whether he would require the assistance of counsel. He said he had discussed that matter with the Department representative and had determined in his own mind that the assistance of counsel would not be needed at this time.

NOTE: The above-cited portion of the Manual of Rules and Regulations concerning "Illegal Activities" presently contains four paragraphs delineating the various types of illegal, and thus prohibited, activities for FBI personnel, including such things as entrapment or other improper, illegal or unethical tactics in procurement of evidence; illegal mail openings; illegal electronic surveillances; and brutality, physical violence, duress, and intimidation. It is believed that this portion of the Manual should have the addition quoted above for the two-fold purpose of emphasizing the extreme importance of our prohibitions against illegal surreptitious entries and, more importantly, to make it crystal clear that the prohibitions are applicable to all phases of the FBI's work.

which may have occurred as a result of institutional failures on the part of the FBI should be so characterized in your deliberations.

I do not intend to imply that your previous consideration of these matters was based on less than all of the facts available to you. Instead, I am requesting that you review the factual results of the Civil Rights Division investigation in light of the possibility that they should be regarded as institutional failures primarily and that any individual culpability is secondary and such failure and culpability should be dealt with in a manner that would not only vindicate the law but would also restore confidence in the FBI as an institution. My personal efforts in that regard have been made known to you, to the employees of the FBI, and to the general public. It is my belief that a policy of openness and adherence to the law will avoid similar institutional failures in the future. In that atmosphere, individual acts of irresponsibility or illegality may be dealt with accordingly in the future.

If you approve my request that you review these matters as I have suggested, it would assist me in the administration of this Bureau if you would so advise me by letter and if you would so advise me of the results of your deliberations at your earliest convenience.

UNAUTHORIZED DISCLOSURES CONCERNING
CIVIL RIGHTS DIVISION INVESTIGATION
OF SURREPTITIOUS ENTRIES

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 3-3-82 BY SP4

As you are aware, the repeated unauthorized disclosures of information concerning the Department's investigation into alleged wrongdoings by present and former employees of this Bureau has been a matter of serious concern to me. I know that you share this concern and are doing your utmost to guard against a repetition of this conduct.

One recent example of these disclosures is found in the March 31, 1977, issue of the Washington Post, captioned "Indictments Urged of FBI Agents in Illegal Break-Ins." The article announced that Justice Department officials had recommended indictments of "low-level personnel involved in illegal burglaries as a stepping-stone to possible further prosecution of approximately six present and former FBI executives." As you know, this is not an isolated incident. Similar articles have appeared repeatedly over the past several months, discussing the progress of the Department's investigation, speculating on the likelihood of indictments, identifying persons who are the principal subjects of the investigation, and disclosing matters such as trial strategy that could be known only to attorneys or others in the Department of Justice who were closely connected with the investigation.

form to the Public Integrity Section of the Criminal Division, enclosing a copy of an article in the New York Times of the same date, noting that the information contained therein might involve a violation of the Privacy Act. In his reply, Assistant Attorney General Richard L. Thornburgh stated that no investigation is conducted at this time, but that the Criminal Division would review this decision at such time as the Civil Rights Division has conducted its inquiry into the illegal entries.

In my opinion, the deliberate disclosure of this information may constitute a violation of the criminal provisions of the Privacy Act. It is certainly contrary to explicit regulations of the Department of Justice, which are subject to severe administrative penalties. There may also have been a flagrant breach of the security, grand jury proceedings and of the ethical and professional standards of the Bar. One can only speculate on whether the resultant publicity has prejudiced the ability of prospective defendants to obtain a fair trial. I am sure you will agree that these matters take on special significance where personnel of the Department of Justice may be involved.

I certainly do not intend to minimize the seriousness of the charges that have been made against present and former members of this Bureau. I recognize also the necessity for investigation and the need for a prompt and impartial resolution of the allegations. It is for this reason that I deferred to the Department of Justice and avoided making any inquiries regarding the investigation. But as Director of the FBI I have a special responsibility to insure that our employees are treated in a fair and impartial manner, particularly where allegations of misconduct may result in criminal charges. They are entitled to no more--and certainly no less--than any other citizen in similar circumstances.

I therefore respectfully request that this matter be referred to the Office of Professional Responsibility in accordance with 28 C.F.R. § 0.100 and that you be advised of the progress of the inquiry.

For your further information, I have attached copies of some of the newspaper articles that have appeared concerning this investigation.

Note: This letter formally requests that the Office of Professional Responsibility inquire into the unauthorized disclosures of information concerning the Department's investigation into alleged wrongdoings by present and former Bureau personnel. Although we have had prior correspondence with the Department in this matter, neither of our early communications was directed to the Attorney General; nor did we explicitly request an inquiry by the Office of Professional Responsibility. That Office reviews allegations against Departmental employees involving violations of law, Departmental regulations, or Departmental standards of conduct. It was created primarily to "make certain that Departmental employees perform their duties in accord with the professional standards expected of the Nation's principal law enforcement agencies." Accordingly, this matter seems uniquely suited to the responsibilities of that Office.

SUBJECT: CIVIL RIGHTS DIVISION INVESTIGATION
OF SURREPTITIOUS ENTRIES AND OTHER
ALLEGED OFFENSES

PURPOSE:

The purpose is to report a request by Congressman Thomas Luken (Ohio) for public information regarding captioned matter.

SYNOPSIS AND DETAILS:

At 3:10 p. m. on May 3, Congressman Thomas Luken of Ohio telephonically advised me that he is interested in receiving all information available concerning captioned matter with particular emphasis on the indictment of John Kearney. I told the Congressman that investigation was conducted by the Civil Rights Division of the Department and that the Bureau has not been furnished the results of that investigation. I told him that recently two groups of Special Agents met with the Attorney General and expressed their concerns regarding the indictment of Kearney and that the Attorney General had indicated his responsibility was to proceed with the indictment. I told the Congressman that it was only that sort of information that the Bureau could furnish him at this time.

Congressman Luken asked me whether any of the Director's statements concerning these matters had been made publicly and whether there were any newspaper clippings that might be relevant. He also asked whether there had been any remarks made in Congress concerning these matters. I told him that the Director had not made any public comment and that there were remarks published in the Congressional Record and in the public press by others. He requested assistance in locating such public material and I indicated to him that we would endeavor to aid him to that extent.

By letter dated February 21, 1962, captioned "JUNE" you advised FBIHQ that symbol number [REDACTED] was assigned to a highly confidential source, namely the U. S. Festival Committee (Eighth World Youth Festival) Room 807, 460 Park Avenue South, New York, New York, for the date 2/16/62. This source was recontacted by the New York Office on 6/7/62.

The identity of this source will affect the FOIPA statutory exemptions available for use and the extent of the information to be released.

REQUEST OF THE BUREAU

It is noted that New York airtel, dated 5/16/77 requested the Bureau to ascertain from the Department and/or Bureau officials who conducted inquiries in the surreptitious entry investigation at the NYO, a listing of personnel who were assigned to Squad 47 of the NYO during the pertinent period.

In addition, it is suggested that the Bureau ascertain from the Department the identities of all FBI personnel who were subpoenaed and/or interviewed and/or appeared before a Grand Jury in connection with the surreptitious entry investigation conducted by the Civil Rights Division of the Department of Justice during the past year.

After a listing of these personnel and Squad 47 personnel is obtained, it is suggested that the Bureau ascertain the current offices of assignment of these personnel from the Personnel Section, inasmuch as many of these individuals have been transferred from the NYO.

The Bureau may then desire to set out leads to have these personnel interviewed in accordance with instructions set out in Bureau airtel, dated 5/9/77.

PURPOSE: To request approval for additional internal investigation relative to unauthorized leaks of classified information arising out of the Department's Civil Rights Division "Surreptitious Entry Investigation"

DETAILS: As reported in memorandum [redacted] to Mr. Decker, 5/5/77, Leon Ulman, Chairman, Department Review Committee (DRC) requested in a memorandum dated 4/21/77 that the Bureau's Document Classification Officer (Security Officer) initiate an internal investigation concerning alleged unauthorized leaks of classified information arising out of the Civil Rights Division's "Surreptitious Entry Investigation." This request is pursuant to Title 28, Code of Federal Regulations, Part 17.55, which is the implementation directive for Executive Order 11652 which, in part, requires the Security Officer of each division to conduct inquiries to determine whether corrective measures and appropriate administrative, disciplinary or legal action should be taken in a case of unauthorized disclosure of classified information. Inquiry findings and recommendations of the Security Officer must be reported to the Department Security Officer and the DRC. In accordance with Mr. Ulman's request and with your approval, airtel dated 5/9/77 requested New York to conduct appropriate investigation concerning access to and disposition of certain classified documents in New York SAC Folder 25 which may have been subject to unauthorized disclosure. By airtel dated 5/20/77 from New York, the following Bureau officials were identified as having access to the material in question: Assistant Director H. N. Lassett; Assistant Director R. E. Long and his investigative staff; SAC J. E. Otto, Minneapolis Division; SAC P. A. McNiff, Tampa Division; SAC C. E. Price, Richmond Division; and SA [redacted] Legal Counsel Division.

Assistant Director Long advised on 5/25/77 he was precluded from releasing material or discussing matters relating to the Civil Rights Division "Surreptitious Entry Investigation" based on an agreement between the Bureau and the Department of Justice. In view of the above, it is requested that you approve the following required to pursue the Bureau's responsibility in this internal investigation.

The following is being set forth in response to Mr. Revell's routing slip of 6-6-77 in which he requested Legal Counsel Division's views on this matter.

The interviews and affidavits for which permission is sought concern a matter which could be the subject of criminal charges under Title 18, United States Code, Section 793(d), (copy attached). Since the individuals who are to be interviewed and whose affidavits are to be secured are identified as having had access to information which was wrongfully disclosed, this necessarily means that they are, in effect, suspects in any potential criminal prosecution. Therefore, it is our recommendation that such individuals be advised of their rights before any interview and the securing of affidavits.
